

GWC CalWORKs Workshop Presents:

SUCCESSFUL ONLINE LEARNING WITH CANVAS

Date: Monday, December 04, 2017

Time: 1:30pm-2:30pm

Location: Humanities 210

Have you thought of taking an online class, but you're not sure how it works? We're going to be utilizing Canvas—the new platform upgraded from Black Board. This workshop will teach you the navigation through an online class, how to understand and complete assignments on Canvas, and what an online class may look like. In addition, if you've ever drafted an email, or tried to contact a faculty member and never got a response back, you may be approaching it the wrong way. Come learn the netiquette when contacting not only your professors, but even potential employers.
